Call for papers

The Bureau d'Economie Théorique et Appliquée (BETA) is pleased to organize the 39th Journées de Microéconomie Appliquée (JMA), days of Applied Microeconomics in Strasbourg at the Patio (Central Campus) of the University of Strasbourg, Thursday 8 and Friday 9 June 2023.

The purpose of this two-day conference is to bring together academics and researchers to present and discuss their ongoing research, and to stimulate interaction and cooperation between them. Topics with an interest in the broad area of applied microeconomics are covered: consumer and demand analysis, producer and cost analysis, industrial economics, organizational economics, innovation economics, labor, education, health, family economics, public economics, spatial economics, transportations, finance, risk and insurance, development economics, welfare economics, agricultural economics, environmental economics and natural resources, law and economics, behavioral and experimental economics, applied micro econometrics, etc. Attention will be devoted also to interdisciplinary and european-oriented work. The JMA are supported by the Interdisciplinary Thematic Institute MAKErS of the University of Strasbourg.

The conference will start with the keynote lecture given by Alexandra Spitz-Oener, professor of Economics at Humboldt-Universität zu Berlin in Germany.

The JMA's job market will give the opportunity to PhD candidates and post-doctoral researchers to signal themselves in the program as candidates for the next recruitment campaigns. The Revue Economique will devote a special issue for this conference in September 2024.
